## Quick Troubleshooting Checklist

### Troubleshooting Basics

💡 *Tip: Run through this checklist before escalating any issue—most problems are solved here!*

- ☐ Is the device powered on?
- ☐ Have you checked all physical cables and connections?
- ☐ Have you rebooted the system?
- ☐ Have you checked for software or driver updates?
- ☐ Have you scanned for viruses or malware?
- ☐ Have you reviewed error logs or alerts?
- ☐ Have you searched for the error code online?
- ☐ Have you ruled out user error or incorrect settings?
- ☐ Have you recently installed new software or hardware?
- ☐ Have you tried reproducing the issue?
